INDEPENDENT AUDITOR'S REPORT

Board of Directors National Kidney Foundation of Illinois, Inc.

We have audited the accompanying financial statements of National Kidney Foundation of Illinois, Inc. (the "Foundation"), which comprise of the statements of financial position as of March 31, 2018 and 2017, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of National Kidney Foundation of Illinois, Inc. as of March 31, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Activities. The National Kidney Foundation of Illinois, Inc. (the "Foundation") is a not-for-profit voluntary health organization. The Foundation provides public education, professional education, patient services, community services and research grants relating to kidney disease and transplantation in Illinois. The Foundation is an affiliate of the National Kidney Foundation, Inc. (the "National Office").

Basis of Presentation. These financial statements have been prepared on the accrual basis of accounting. These financial statements report amounts separately by class of net assets. The separate classes of net assets are defined as follows:

<u>Unrestricted</u> - Amounts that are currently available for use in the Foundation's operation and for acquisition of property and equipment.

<u>Temporarily Restricted</u> - Amounts that are stipulated by donors for specific operating purposes or for use in future periods.

Permanently Restricted - Amounts that are stipulated by donors to be maintained permanently by the Foundation.

Research. The NKFI Research Grant program funds young investigators who have research projects that will increase the understanding of kidney, urologic and related diseases and transplantation as well as improve the clinical management and treatment or cure of these diseases. Grant submissions are reviewed and selected by the NKFI Research Review Committee on a biennial basis. Award winners received up to \$60,000 per year for a total of \$120,000 award period.

Public Education. World Kidney Day is a global awareness campaign aimed at raising awareness of the importance of our kidneys.

The Advocacy program drives legislative change to guarantee thoughtful policies are in place for individuals living with kidney disease as well as dialysis patients and transplant recipients.

Build a Better Basket is a program that follows a Jewel-Osco dietitian as they go on a virtual tour of a typical grocery store, giving demonstrations and tips on healthy food prep, while showing samples of kidney-friendly meals and serving sizes.

Health is in Style is a collaboration of barbers and stylists and the National Kidney Foundation of Illinois to educate the African American community about the risks of kidney disease.

Patient Services. Living with Kidney Disease and Transplantation is a series of one-day conferences offered for people affected by or at risk for kidney disease, individuals on dialysis, people waiting for a kidney transplant and those who have already been transplanted, as well as their family members. Experts present on current topics such as treatment options for kidney failure, medications and their side effects, insurance options and financial assistance, as well as psychological effects of living with kidney disease.

Kidney Camp is a free week-long overnight camp in northern Illinois is for kids ages 7-15 who have had organ transplants, are on dialysis or are living with kidney disease.

Professional Education. Citywide Grand Rounds follows a Clinical Pathologic Case Presentation model, with the evening including interesting case presentations. The audience participates by asking questions and voting during each case.

Professional Education (Concluded). Controversies in Nephrology is a program presented through an interactive, participatory debate among nephrology fellows representing Chicago's medical academic centers. Debate topics are chosen based on their relevance and association with the nephrology and transplant fields. This program provides an evening of networking and education for nephrologists, transplant surgeons and allied health professionals.

The Illinois Council on Renal Nutrition's Spring Clinical Meeting is an intensive one-day professional development course specifically geared toward renal dietitians, to provide information and education on the most cutting-edge practices and treatment currently available to renal patients.

The Interdisciplinary Nephrology Conference is an intensive one-day course geared specifically to the needs of nephrology nurses, dietitians, social workers and technicians. The Interdisciplinary Nephrology Conference provides information to renal professionals on the most cutting-edge practices and treatment currently available to renal patients and creates an opportunity to network and share information with colleagues.

Community Services. The KidneyMobile is the nation's first mobile screening and education vehicle for kidney disease, diabetes and high blood pressure. It travels throughout Illinois, focusing on medically underserved communities to provide comprehensive early detection screenings and education to individuals considered most at risk. On average, there are 70 KidneyMobile screenings a year. In the lifetime of the program, KidneyMobile has screened more than 54,000 participants.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment return includes the Foundation's gains and losses on investments bought and sold as well as held during the year and are included in the statements of activities.

Contributions and Grants. All contributions and grants are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

Revenues applicable to special events in a future period are considered to be deferred revenue until the special events occur, at which time the deferred revenue is reclassified as special events revenue.

Affiliations. Twenty-five percent of gross unrestricted contributed income, as defined, less certain allowed expenses, are remitted to the National Office. The Foundation had an outstanding balance due to the National Office of \$45,991 and \$30,837 as of March 31, 2018 and 2017, respectively, which is included in accounts payable and accrued expenses on the accompanying statements of financial position.

Cash and Cash Equivalents. Cash and cash equivalents include temporary investments purchased with a maturity of three months or less. The Foundation maintains cash and cash equivalents in bank accounts that may exceed federally insured limits. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant risk on cash and cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pledges. Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using interest rates based on the long-term federal rate applicable to the years in which the promises are received. Amortization of the discounts is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met.

Depreciation. Property and equipment are recorded at cost as of the date of acquisition or at fair market value at the date of donation. Property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. There were no impairment charges for the year ended March 31, 2018 and 2017. Depreciation is provided on straight-line methods over the estimated useful lives of the assets generally as follows:

| | Useful Life |
|--------------|-------------|
| | Estimated |
| | (Years) |
| | |
| Building | 27.5 |
| Equipment | 3 - 7 |
| Furnishings | 5 - 7 |
| KidneyMobile | 7 |

Allocation of Costs. Expenses, which cannot be directly identified with specific functions, are allocated based on estimates of staff hours devoted to the respective functions. The revenue share payment to the National Office is allocated to specific functions based on percentages provided by the National Office as follows for the years ended March 31, 2018 and 2017:

| 2018 | 2017 |
|---------|--|
| | |
| 3.40% | 2.74% |

Management Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

NOTES TO THE FINANCIAL STATEMENTS

Recent Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenues from Contracts and Customers (Topic 606). This ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of good or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. In August 2015, FASB issued ASU 2015-14, Revenue for Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date of ASU 2014-09 to reporting periods beginning after December 15, 2018. Early adoption is permitted for reporting periods beginning after December 15, 2016. Companies may use either a full retrospective or a modified retrospective approach to adopt this ASU. Management is currently evaluating this standard, including which transition approach to use.

In August 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-14, Not-for Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities. This ASU is an update to the presentation of the Statement of Activities and liquidity measures. The effective date is for annual periods beginning after June 15, 2018.

NOTE 2 – INVESTMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1.** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- **Level 2.** Inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of March 31, 2018 and 2017.

Mutual Funds and Money Market Funds. Valued at the net asset value of shares held by the Plan at year end, based on quoted market price.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 - INVESTMENTS (Concluded)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Foundation's assets at fair value as of March 31, 2018 and 2017:

| | Assets at Fair Value as of March 31, 2018 | | | | | | | |
