

Donating is Simple

QUICK RECOVERY

Surgeries can be done through tiny incisions with a 2-week recovery.

ONE KIDNEY

You only need one kidney to live a healthy life.

COSTS COVERED

The donor's medical costs are covered by my health insurance!

I have kidney disease and have gone into kidney failure. My only treatment options to live are dialysis or a kidney transplant.

A transplant from a living donor will be better for my long-term health. I'm sharing my story in hopes of finding one.
